

## Shape the future with us – and join our team!

As a [mover], discover what drives the industry and how we create competitive advantages together with our customers. As a [shaper], you will continuously develop our software solutions in the areas of core insurance, regulatory reporting or asset management and implement them for our customers in the best possible way.

Are you also a [mover & shaper]? If so, we are looking for you as a permanent ...

## Full time Software Developer / Developer Java (m/f/d)

Berlin or Frankfurt

### What to expect as a [mover & shaper]?

You will support...

- the development of modern applications, interfaces, and tools in Java
- to conceptualize complex cloud solutions using Java, SpringBoot, JavaScript, MariaDB and Oracle Database
- our customers and consult them on the planning, implementation, and rollout of our solutions

### What qualifies you as a [mover & shaper]?

- Completed studies in (business) computer science, mathematics, or comparable education
- You possess JavaScript experience or are willing to gain experience in frontend development
- Ideally you have previous experience with one of the following technologies: Spring, SpringBoot Hibernate, Git, Jenkins, or JUnit
- Good proficiency in German and English

Mobile and flexible working is a matter of course for us. You won't have to move to work for us. Your Office will be the one that is located nearest to you (Berlin, Frankfurt/Main, Hamburg, Cologne, Leipzig or Munich). In working projects, you will support our customers nationwide on site. Are you a [mover & shaper]?
